

Pinewood Property Owners' Association Independence Day Parade Staffing

Monitors

All monitors will wear the Event Staff vests and be in the initial positions at 9am with calls to Communications. Responsibilities are basically the same for each position regarding the observance of rules compliance by the participants. If any rules are violated, the monitors will not confront the participants but will just note the vehicle license number and a word or two describing the violation. These will be turned in to the parade sponsor and the violators will be contacted for probation or suspension from next year's parade.

Parade viewers are to be observed for a few activities and rules; again, no confrontation, just reminders. Trash on the parade route should be deposited in the trash containers that are positioned close to each monitor. Viewers should not be constricting or blocking side roads or the country club and fire department driveways. Parking is not allowed on the shoulders of Pinewood Blvd.

The second responsibility is blocking traffic coming from the side roads after the closing of Pinewood Blvd and Walapai at 9:45am. Positions M8, M9, and M10 do not have a side road to control.

M1 thru M3 are located on Walapai and M4 thru M12 are located on Pinewood Blvd.

Following are the specifics relating to each position:

- M1 Located at the middle condo driveway and across from Sundance, both of these should be closed at 9:45am.
- M2 Located at the first condo driveway and should be closed at 9:45am.
- M3 Located at Longbow and should be closed at 9:45am.
- M4 Located at the driveway for the fire department and viewers should not be allowed in order to keep the driveway clear in the event of equipment deployment.
- M5 Located at Cochise and should be closed at 9:45am.
- M6 Located at the east driveway for the country club and should be closed at 9:45am.
- M7 Located at the west driveway for the country club and should be closed at 9:45am.
- M8 Located on the south side across from 310/350; no side road.
- M9 Located on the south side across from 250/280; no side road.
- M10 Located on the south side across from 170/200; no side road.
- M11 Located at Hopi and should be closed at 9:45am.
- M12 Located at Apache and should be closed at 9:45am.
